

**Lake Kanasatka Watershed Association**  
August Picnic Meeting Notes  
August 12, 2017  
Minutes submitted by Joan Izen, Secretary

The annual picnic meeting was held at the home of Hospitality Committee Chairs, Kevin and Sandra Kelly, 68 Glidden Road. The picnic began with a brief business meeting; 37 people were in attendance.

Acting President/Vice President Kirk Meloney welcomed everyone to the annual picnic and thanked our hosts, Kevin and Sandra. He noted that LKWA membership is at an all time high with approximately 115 members. He provided a brief recap of this year's significant activities. LKWA funds were used to purchase two pieces of water testing equipment. This purchase is consistent with our Association's primary mission: to ensure the pristine water quality of Lake Kanasatka. The equipment was on display for members to examine and discuss with water quality committee members.

Secretary Joan Izen introduced the Board members and thanked Kirk for filling both Acting President and Vice President positions. She encouraged LKWA members to consider becoming active participants in the organization either as a Board or committee member.

Kirk provided a brief update on the development of the land currently known as Maple Cottages. LKWA members were encouraged to stay aware of the planning board's actions as they consider the developer's proposals. Actions taken on this land will have a direct affect on the watershed.

A member asked if the ramp on Route 25 is the only public access to the lake. Kirk responded, "yes".

Another member asked if the state removed the white buoy in the cove by Route 25. Someone responded they saw a white buoy floating near their home. Kirk will follow up on this.

With no other comments or questions the business meeting ended at 12:10 and all enjoyed the picnic. Many thanks to Kevin and Sandra and all those who contributed the wide variety of drinks, salads and desserts.
